Typesetter: Dva

LOOKING
AROUND THE
SHIP.

THERE ARE
COUNTLESS
BUGS.

BUT—

IF I TAKE IT
EASY AND
HANG
AROUND,

THERE'S NO
NEED TO GO
LOOKING
FOR THEM.

HMM...

AND
ATTACK.

THEY'LL
COME TO
ME.

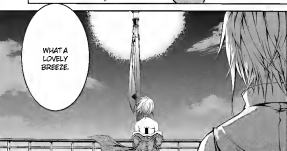

IF I THINK
ABOUT
IT...

THAN MY
USUAL WORK.

IT'S A LOT
EASIER

CHAPTER 22: THE REAL FUN BEGINS NOW

JUST ENJOYING
THE NIGHT
BREEZE UP ON
DECK.

NEITHER
SCUTTLEING
AROUND IN
PANIC OR
SMIFFING ABOUT
LIKE A DOG.

TO
FOURTE
THAT
OUT.

YOU'RE
NOT HALF
BAD
YOURSELF

GLAD
WE'RE ON
THE SAME
PAGE

TO TAKE THAT
COURSE OF
ACTION.

YOU
MUST BE
INCREDIBLY
CONFIDENT

TUG

NOW,

LET'S
ENJOY THIS
TOGETHER.

WE AREN'T
ON THE JOB
FOR THE
ORGANIZATION.

LET ME SAY
THIS FIRST:

I'M NOT
INTERESTED
IN PLAYING
DOCTOR.

SORRY,
BUT

ARE YOU
SURE YOU
DON'T?

EVEN IF
I DON'T
HAVE A
REASON.

ARE YOU
AWARE OF
THAT?

SO THERE'S
NO REASON
FOR US TO
KILL EACH
OTHER.

LIKE...

TAKING
ON A
CENTER-
PILLAR

AND BY
YOUR-
SELF?

FROM
THE
FRONT

YOU'RE
ABOUT

400 MILLION
YEARS TOO
EARLY.

in the era
where life
advanced from
ocean to land.

The origin of
insects was
900 million
years ago-

was the
Crychophora.

its genesis,
represented
today by the
velvet worm,

which
in turn
evolved
into
insects.

This basic
form was
passed on
to the
caterpillar,

they
already had
a circulatory
system and
could feed and
walk.

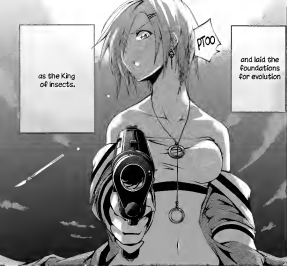

While the
Crychophora
lacked body
segments,

In the battle
for survival
from the
beginning of
time

Thus, the
caterpillar
prevailed

as the King
of insects.

and laid the
foundations
for evolution

PTOO

I'VE
ALREADY
WON.

HOWEVER,

THAT'S QUITE
IMPRESSIVE.

400
MILLION
YEARS!

HUH?

THE
SCORPION
HAS THREE
FRIENDS.

When did
she...?

YELLOW IS
THE NEW-
BORN
SCORPIO.

RED IS
THE FATAL
TOWN
SCORPIO.

AND THE
ONE I JUST
INJECTED
YOU WITH.

THAT INVITES
YOU TO SLEEP AND
ROBS YOUR
CONSCIOUSNESS:

THE BLUE
FRIEND

SWOON TOXIN
SCORPIO.

WELL...
THEN...

EXCELLENT
SPECIMEN.

TO CATCH
SUCH A
STRONG,
BEAUTIFUL...

Stop

PRINCESS.

THE REAL FUN
BEGINS NOW.
